## Alumni Association launches program to raise funds for ETHS

For the last few years the ETHS Alumni Association has been working to create a tax-deductible way to contribute to the needs of ETHS students, faculty, and the high-school programs that are otherwise not funded by tax revenue.

In May, the Association will launch a fund-raising program that will operate through the existing "ETHS District Foundation," an already organized, tax-exempt, charitable organization.

The Association's initial focus continues to be providing scholarships to deserving

graduating seniors. At the same time, the association will be considering other student- and ETHS-related needs as they present themselves. For example, the Alumni Association already has helped fund the Dialogue Series speaker program and has contributed in getting radio station WKR (Wildkit Radio) on the air (and over the Internet!).

These are examples of some of the things the association has done, and hopes to continue to do with tax-deductible contributions from ETHS alumni.

## Alumni Directory enters research phase

In December 1994, Harris Publishing Co. published the first edition of the ETHS Alumni Directory, and it was an instant hit! Now Harris's Graduate Connection branch is updating the original directory.

Very soon all alumni for whom ETHS has a good address should receive a postcard from Harris's Graduate Connection asking them to call Harris (toll-free at 800-792-6209) to update their biographical information. While the requested information will include name, class year, address, phone, email address, and family names, alums may give as much or as little information as they choose.

One new feature the ETHS Alumni Association has asked Harris to research are careers that ETHS alums have pursued. This database, which will be listed by career area in the rear

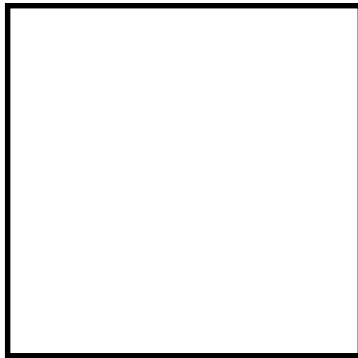

of the directory, should be of interest to other alumni. It will also be useful for ETHS faculty in career discussions with students.

The timeline for updating the directory is much shorter than the year it took Harris to compile the original edition. The phoning phase—either alums calling Harris or Harris phoning alums if they haven't called first—lasts only 11 weeks.

During the phone call, alumni may (but are certainly not obligated to) order a copy of the directory (\$69.99 for a hardbound copy, \$59.99 for the paperback edition). **Tentative deadline for placing an order is August 7.** Only a few copies will be printed beyond what are ordered, said a Harris representative.

The new directory will be released in November 2000. Once the project is over, Harris will return the freshened database to ETHS at no cost.

## Sered on the Rhodes to Oxford

Danielle Sered, '96, a senior at Emory University in Atlanta, is one of 32 Americans chosen in December 1999 as Rhodes Scholars for the year 2000. An English major with a French minor, Sered was cited for winning numerous awards for her writing, founding a community arts-outreach program, and serving as editor-in-chief of Emory's student-literary magazine.

At ETHS, she excelled in science and debate, winning the state high school debate championship in 1995.

On March 8 she was honored by the Georgia legislature with joint House and Senate resolutions recognizing her academic and community achievements. Along with being named a Rhodes Scholar, Sered was selected to the 20-member *USA Today* All-USA Collegiate Academic Team.

Sered plans to use her Rhodes scholarship to pursue her master's degree in English at Oxford, with a concentration in contemporary Irish literature. She has published essays and poems in national-literary and collegiate magazines, and won a national Norton Scholars Prize from W.W. Norton Co. and the Modern Language Association. She is a member of Phi Beta Kappa.

## "This is Evanston" is now available

The 2000 edition of "This is Evanston," published by the League of Women Voters of Evanston since 1949, is available through the ETHS Alumni Office. This indispensable source of information about Evanston includes a history of Evanston; government guide; and profile of community services, institutions, and cultural resources. It's a perfect gift for newcomers, longtime residents, or former residents who want to know more about Evanston today.

In a joint fund-raising venture between the League and the Alumni Association, you have the opportunity to purchase "This is Evanston 2000."

Individual copies are \$15 (\$5 for the Alumni Association). To date, this venture has netted \$90 for the Alumni Association. To place your order, make a check payable to the ETHS Alumni Association and include a note stating how many copies you want and where you want them mailed. Send your order to the ETHS Alumni Association, ETHS, 1600 Dodge Ave., Evanston, IL 60204.

## Laptop Loan Program grows

The Laptop Loan Program, initiated by ETHS alumni, is growing in numbers. By the end of April, there were 14 laptops that students may borrow. For those many students who do not have access to a computer at home, the Laptop Loan Program is a blessing. These computers are loaded with the standard Microsoft Office products—Word, Excel and PowerPoint. Students may borrow the computers for 1-3 days to work on school-related projects from the Media & Technology Department.

The Laptop Loan Program originated with gifts of money from the 50th Reunion Classes of 1948 and 1949. ETHS

Superintendent Allan Alson has offered to match the monetary gifts of alumni classes from available school funds to expand this important resource for students. It is hoped that the program will continue to grow with alumni donations and matching school funds.

## Correction

In the November 1999 issue of The Kit, Sarah Stegner, '82, was listed among those who had passed away. That's the information we received and printed. Not so, we're happy to report! Sarah is very much alive and is the Executive Chef at the Ritz Carlton in Chicago. We truly regret the error.

## From the President William Wysocky, '46

In my last letter as President (since my term ends this September), I would like to cover a few points.

First, membership. The ETHS Alumni Association is now five-years-old. It has come a long way in a short time. We currently have over 1,900 alums as "active members." I hope we can recruit many more. Your \$25 annual dues pay for *The Kit*, which is mailed twice a year, and a variety of Association activities. We work with ETHS in various ways that are not normally supported by

taxes but which improve the quality of education. One example is the scholarships we support for outstanding students to further their education after graduating from ETHS.

A new alumni fund-raising effort is my second point. In about six weeks you will receive more information about the association's fund-raising drive, which will be used to help support scholarships, possibly including the Cunningham Award for boys which lacks financial parity

with the outstanding girl's award, as well as targeted school programs. We would like to establish an endowment fund and use the accrued interest as support revenue. Please be as generous as you can with your contributions.

I will step down in September, and your new president will be Jeanne Zimmer, '77. Please give her the same support you have given to me. Thank you for all of your help. The pleasure was all mine.

Everett Opie, '47, did sketches such as this one for *The Evanstonian* his junior and senior year. He worked for *The New Yorker* magazine in New York for about 40 years, and now lives in a Bronx, NY, care facility. His classmate Joyce Macdonnell Meinert submitted several copies of his sketches. Her class is trying to locate an original for the ETHS Art Gallery.

# ETHS Updates

Winter and Spring 2000 have been exciting at ETHS! Not only have students earned top honors in several major events, most of the athletic teams have had stellar seasons.

- For the third consecutive year, the **ETHS JETS** (Junior Engineering Technical Society) academic team placed first in state competition.

- ETHS's **Chess Team** was named state champion for the second time in three years.

- Fifteen students in ETHS's **DECA** (Distributive Education Clubs of America) chapter qualified for nationals by winning first, second or third in state competition.

- A 14-member team placed second in state finals in the **World Youth Science and Engineering** academic competition.

- A team of 10 ETHS students captured two first-place medals and a fourth-place mention at the **International Student Robotic Challenge** in which over 120 universities and high schools participated.

- On April 12, over 800 ETHS students were recognized at a special pizza luncheon for their voluntary participation in **community service** projects.

- One student—Katie Henoch—earned a perfect score in the **National Latin Contest**, the seventh ETHS student to do so since 1990. Over the last decade, 38 students have won Gold Medals in the National Latin Contest (six just this year alone!).

- On April 12, 213 juniors and seniors (7% of the student body) were inducted into the **National Honor Society**. Over the last 10 years, ETHS has averaged 180 NHS inductees per year.

And here's the sports roundup:

- **Basketball**—The girls were awesome, placing 1st in the Central Suburban League South Division, 1st at regionals and sectionals, and 2nd in the conference. Danielle McKinley, Angel Mason and Tanara Golston made the All-Conference team; McKinley and Golston made the Pioneer Press All-Area Team; and McKinley was named to the *Chicago Sun-Times* All-Area and All-State teams. The varsity boys, with an overall 17-9 record, placed 2nd in the CSL-South, and had two players—Scott Horne and Vladimir Ako—named All-Conference.

- **Cross Country**—The boys' team was 1st in conference, 2nd in sectionals, and 4th at state, where junior William Artope placed 13th. The girls' team was 1st in conference and at regionals and placed 8th at sectionals.

- **Football**—The varsity team, which had its first losing season in a tough conference in over a decade, didn't live up to its 6th-place state ranking.

- **Golf**—Despite two All-Conference selections (senior Jason Bergmann and junior Paul Hiller), both the boys' and girls' teams had lackluster seasons.

- **Soccer**—A very tough year for the boys, but they managed to end the season with a 6th-place state ranking. The girls are in their season now.

- **Swimming & Diving**—Both the boys and girls sent teams to state this year, where the boys placed 4th and the girls finished 13th.

- **Tennis**—Despite a rocky season for the girls, three girls qualified for the state meet. Spring is tennis season for the boys.

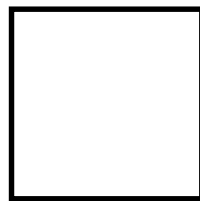

- **Volleyball**—The girls advanced to sectionals, where they lost a close two-game match to New Trier. Senior middle-hitter Teesha Block was named All-Conference. The boys play this spring.

- **Wrestling**—Three ETHS wrestlers were named All-Conference: Jason Carter, Wesley Wosik and Carlington Young.

# ETHS teachers retire

ETHS will sadly bid farewell to 13 veteran teachers in June. They are (and the year they came to ETHS):

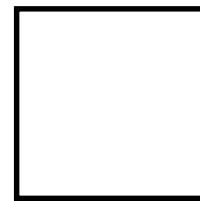

- **Lun Ye Crim "Lonnie" Barefield**, counselor/college counselor, 1977
- **Richard Faro**, Science teacher, 1967
- **Marta Fernandez**, Spanish teacher, 1981

**Ronald Gearing**, English teacher, 1966

- **Syd Lieberman**, English teacher, 1973
- **Leora "Kay" Long**, Librarian, former Media Chair, 1966
- **Fred Ludwig**, Math teacher, 1967

**Willie May**, Co-Athletic Director, PE and Driver Ed teacher, 1967

**Bruce Mitchell**, English teacher, 1968

- **Michael Miles**, Driver Ed teacher, 1969
- **Tom Pool**, German and Reading teacher, 1970
- **George Seidenbecker**, English teacher, 1967
- **David Taylor**, Science teacher, 1962

# History, library benefit from alumni donations

ETHS students will benefit from two generous donations that will purchase books for ETHS students to use in their scholarly pursuits.

When **Grace Bransfield Mason, '48**, attended ETHS, her interest in the field of history was inspired by legendary teacher Bernard Mattson, enough so that she majored in history at Oberlin College. When Grace Mason passed away this January, her family felt there could be no greater tribute to her than to start a memorial fund to purchase history books for ETHS. William Branch, History/Social Science Department Chair, said that his department faculty plans to use the memorial

funds for history-reference materials, possibly including electronic media, for all students to use.

The general-library collection will grow thanks to a donation from **Robert A. Sellery, Jr., '56**. Last spring Sellery asked alumni in *The Kit* if anyone had a copy of his first-year Latin text, *Living with the Romans*, written by ETHS Latin teacher Irene Crabb. **Joan A. Clausz, '59**, a librarian who had carried that book with her as she moved around the country, sent the book off to Sellery. She refused payment for her gift and suggested that he make a donation to the ETHS library instead. Sellery gratefully obliged this request.

# Alumni Art Gallery collection expands with three donations

Six artworks by ETHS alumni have recently been added to the ETHS Alumni Art Gallery.

Four of the works have been donated by **Marie (Klopsteg) Graffis, '33**: three pen and ink drawings by **Lars-Birger Sponberg, '38** ("Plowing," "Farm Scene" and "City of Big Shoulders"), and a pencil drawing of ETHS by **Frank Goodnow, '41**.

**Harold E. Cowell, Sr., '43**, loaned the gallery an untitled hand-engraved metal work that he produced.

**Darleen (Veihl) Gsell, '58**, donated her oil painting "Green Bouquet," which won first prize in advanced amateur oils at the 1968 artists' festival in Glenwood Springs, CO. The painting and ribbon now hang together in the ETHS Art Gallery.

"ETHS," by Frank Goodnow, '41. This pencil drawing was donated by Marie (Klopsteg) Graffis, '33.

Last May the inaugural collection of 17 works by 13 ETHS alums was unveiled at a special gallery opening. The Alumni Art Gallery is located in the ETHS Auditorium Lobby.

# Letters, we get letters...

OJAI, CA—My copy of the ETHS alumni newsletter arrived on Friday, December 17. It felt unusually thick and heavy. On unfolding it, out fell a second copy. It, however, was addressed to Dr. Robert Levin on Fairview Rd. in the same town of Ojai, CA, population 7,900 and holding!

Said Doctor being listed in the phone book, I called. It was indeed **Bob Levin, Class of '67!** We met at his home on Sunday the 19th when I hand-delivered the newsletter.

Bob is a pediatrician and infectious-disease specialist, now the Public Health Officer of Ventura County, in which we both live.

I am a retired internist, volunteer in church and community activities, and a very amateur gardener. As I told my wife: "Bob is what I anticipated another personable, intelligent ETHS alumnus would be."

*John A. King, '40*

AURORA, CA—The Alumni Association and the newspaper is a great idea. I always look forward to seeing the Association's good work and finding out what my classmates have been doing.

I do have one suggestion, though. Now that we are in the 21st century, it might be a good idea to stop printing the racial composition of the ETHS student body in the newspaper. Since we are all "brothers and sisters," it seems that this type of information for an alumni association is no longer needed. Although I am fully aware that racial composition data are important for government and school-district needs, I do not see a constructive purpose in having it in our newspaper.

*Steve Hancock, '64*

[This letter relates an accidental meeting between 26-year Evanston resident Marian Kurz, who is not an ETHS grad but whose three children are: Kyle, '80, Kelly, '81, and Chris, '90. While in Australia, she met Robert VonGillem, '34.]

EVANSTON—My husband Bob and I were visiting the Great Barrier Reef [in March]. Because it is difficult for my husband to get into a boat, he opted to watch the water and activity on the Quicksilver, the boat which takes passengers from Cairns to the site.

According to the crew, we need to be in two to enter the glass-bottomed boat that takes you underwater to see the marvelous coral creations in the Coral Sea. A gentleman standing next to me [VonGillem] appeared to be alone, so I asked him if he would partner with me. He consented and we began to

## Athletic Hall of Fame inducts six More teachers aware of Dialogue Series this year

On March 29, ETHS inducted six former athletes who helped establish the proud winning tradition at ETHS into the high school's Athletic Hall of Fame. This brings the number of Hall of Fame members to 45 ETHS sports greats. The Athletic Hall of Fame is housed in the lobby of Beardsley Gym.

### Donald Heap, '30, ...

was a three-sport athlete (football, basketball, baseball), Heap received the Noyes Trophy for being the best all-around athlete in 1930. He attended Northwestern on a football scholarship, where he played halfback and was named team captain and All-American in 1937. He was head football and baseball coach at IL Wesleyan and also coached for NU. He served the Evanston Recreation Dept. for 20 years as Assistant Director and later as Business Manager.

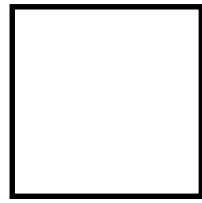

### Emery Moorehead, '72, ...

was another three-sport athlete (football, basketball, track/discus), Moorehead captained the 1971 undefeated ETHS football team and earned All-Suburban League and *Chicago Sun-Times* All-Area Team honors. In 1972, he was 6th man on the basketball team that went to state and was the IHSA District and Suburban League discus champion. He attended the U of Colorado on a football scholarship, where he played in two bowl games and held the all-time average per catch (19.1 yards). He played 12 years in the National Football League: 3 with the New York Giants, 1 for the Denver Broncos, and 8 for the Chicago Bears. He ended his career as the Bears' second-leading all-time receiving tight end.

### Kathleen Economou, '86,...

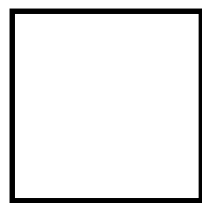

was a soccer and volleyball phenom at ETHS. In soccer, she was varsity starter all four years; MVP, All-State and All-American three years; and All-Conference all four years. Also a varsity starter in volleyball for three years, she was co-captain and All-Conference her senior year. She led the Prairie State Games Scholastic Team to gold medals in 1985 and 1986 and the Open Womens' Team to gold medals 1987-89. She attended U of Connecticut, where she was a starter in soccer and led the team three years to the NCAA tournaments.

She holds four indoor and five outdoor school records. She attended Ohio State on a track scholarship, where she was Big Ten champion four times in the 400 meter, two-time indoor qualifier for the NCAA championships, and school record holder for the indoor 200-meter dash.

### Robert Gary, '91, ...

played soccer and ran track all four years at ETHS. In soccer, he made All-State as a senior. In track, he placed second at state in the 3200-meter run in 1990, was conference and sectional champ in the 1600-meter and 3200-meter run in 1990 and 1991, and was state champ in 1991 in the 3200-meter run. He attended Ohio State, where he was All-American in cross country (1994-95), indoor-track 3000-meter run (1995-96) and outdoor-track 3000-meter steeplechase (1994-95). In 1996 he was a member of the Olympic team in the 3000-meter steeplechase and hopes to make the team again this year. He is assistant track coach at Ohio State.

### Danyel "Cecil" Martin, '94, ...

was a three-sport athlete all four years at ETHS (basketball, track, football). Three-year varsity starter in football, All-Conference and captain as a senior, Cecil also played varsity basketball two years, and was a shot putter for three years, an event in which he finished second at state his senior year. He attended the U of Wisconsin on a football scholarship, where he lettered for four years, started for three, and captained the school's 1999 Rose Bowl Championship team as a senior. He was named to the Top 20 List of College Athletes in the Nation for Sportsmanship and Civic Responsibility. He was drafted by the Philadelphia Eagles after graduation, and started five games as a rookie during the 1999 season.

Twenty speakers have come to ETHS this school year thanks to the ETHS Dialogue Series. This program was started by the 50th reunion committees of the Classes of '45 and '47 to bring speakers to ETHS with specific expertise, job talents, historical interpretations, life experiences or cultural insights to talk with student groups. This year, more and more teachers have tuned into this valuable classroom resource provided by ETHS alumni.

Some of the speakers who have been funded by the Dialogue Series this year include:

- René Sota, founder of the Latino Research & Cultural Center, who spoke to Kelly

McKee's Latin American Studies students about the survival of indigenous peoples of Mexico, focusing on the conflicts in the state of Chiapas.

- Rev. Lacy J. Bank, journalist and civil-rights activist, who spoke to Stephen Bourné's English students about his participation in Dr. Martin Luther King's march on Washington.

- Diana Schuster, an AIDS educator, spoke with Dee Ragalie's Health Education students about the disease and living with a husband who died of AIDS.

- Jennifer McCue's and Scott Sullivan's students taking Critical Thinking in the Modern Age heard six panelists discuss

how the media portrays urban violence. The speakers were Chicago Police Officer Kim Joy Huh, New Trier security guard Brian Johnson, ETHS security guard Rob Locke, WMAQ-TV reporter Phil Rogers, defense attorney Richard Kling, and State's Attorney supervisor Steve Goebell.

Any class reunion or individual wishing to donate to the ETHS Dialogue Series should send checks payable to the "ETHS Dialogue Series" to the ETHS Alumni Association, ETHS, 1600 Dodge Ave., Evanston, IL 60204.

## ETHS alums featured in *Chicago Trib*

In the past few months, four ETHS alumni have been profiled in the *Chicago Tribune*. We thought you'd like to know about:

**Gordon Segal, '56**, founder and chief executive of Crate & Barrel, launched CB2, a new, less-expensive spin-off to his well-known housewares and home furnishings chain. The first CB2 store, located at 3757 N. Lincoln Ave. in Chicago, opened in January. With a hip, "techno" feel, CB2 is reaching out to the twenty-something Internet-generation, customers also targeted by Ikea, Target, and other retail outlets who appeal to first-time apartment and home dwellers. According to the Trib, the store's offerings run the gamut from bed linens to flatware to kitchen utensils to a maple home-office system.

**Leonard Schaeffer, '63**, 15-year chairman and chief executive of Wellpoint Health Networks Inc., heads a health-care organization noted for the options it offers its subscribers. After graduating from Princeton in 1969, Schaeffer served as deputy director for management, Illinois Department of Mental Health and Developmental Disabilities, and later

ran the Medicare program during President Carter's administration. In 1986, he took over the financially troubled Blue Cross of California and in 1993 converted it to a for-profit company that went public as Wellpoint. Wellpoint recently absorbed Chicago-based Unicare Health Plans (formerly Rush-Prudential Health Plans) for \$200 million and, partnering with Dutch bank ING Barings, has also bid \$10 billion for troubled Aetna Inc., the nation's largest HMO.

**Hecky Powell, '67**, owner of one of Chicagoland's most famous barbecue restaurants, was featured as an activist and philanthropist, who strongly believes in giving back to his community. Rising from a troubled youth to successful businessman, along the way he directed an Evanston anti-poverty program and led Evanston's NAACP chapter. Official rib provider for the Chicago Bears and Northwestern Wildcats, he now also serves on the Evanston Recreation Board and directs his own foundation. His

personal philanthropy of hiring and mentoring at-risk youth was also chronicled by the Trib. Recently Powell, a jazz aficionado, opened a jazz club and banquet hall (near the former Fanny's Restaurant on Simpson) to help revive the neighborhood and bring together "black and white Evanstonians in the name of jazz." (Two April concerts featured the jazz quartet of David Young, '97, now attending Northwestern, who played with Wynton Marsalis last summer.)

**Marsha (Avery) Belcher, '67**, ESPN-AM 1000 radio-station manager in Chicago, came to her new job a year ago with a proven track record as general sales manager of WBBM-AM 780. The article relates how this self-professed "sports enthusiast" has succeeded as one of the few women to manage a Chicago radio station, a career slot usually filled by men. After ETHS, Belcher majored in education at Southern Illinois University and taught for seven years. She lives with her husband and two teenage sons, both athletes themselves, in Lake County, IL.

talk. In the course of our conversation, he told me he was from Des Moines and he had graduated from ETHS. His daughter lives in Australia, so he had come to visit her; his wife was not up to the long trip, so he came solo. The following day as we went to take a gondola ride over the rain forest to the town of Karunda, Bob got off the gondola in front of us.

Imagine coming almost 10,000 miles to bump into another one-time Evanstonian! Motto: It's a small world so you better behave yourself!

## Students learn from the career experts

ETHS's career-development program, "Jobs Need People," hosted a series of career panels in conjunction with Black History Month in February. Each panel highlighted careers related to one of ETHS's Career Pathways programs and was attended by approximately 40 students. One of the career panels was made up exclusively of ETHS graduates, although a few other alums participated on the Career Pathways panels.

Participating on the alumni-career panel were: **Kwamie Bowie, '91**, Fermi Lab; **Herb Gunn, '67**, Herb's Landscaping; **Sam Hunter,**

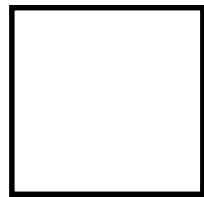

'69, Evanston Fire Department; **Ra Joy, '91**, McGaw YMCA; and **Ralph Moore, '67**, RGMA Consulting.

Overall student feedback was very positive and indicated an interest in hearing from a broader range of career areas. Representative comments of lessons learned included: "follow your dreams," "If you aren't going to college, consider an apprenticeship," and "You need team, personal, social skills for almost any job."

## ETHS alumni arts update

Several ETHS alumni have made a splash in the entertainment world. For example...

It's a dream partnership. Author **Gwen Macsai, '78**, and actress **Joan Cusack, '80**, both award winners in their

Gwen Macsai, '78

fields, have teamed up with producer James L. Brooks ("The Mary Tyler Moore Show," "Broadcast News," "Taxi," "The Simpsons") to develop a half-hour Columbia TriStar romantic-comedy series for ABC. The series will be written by Macsai, whose very funny, life-observant essays for National Public Radio as well as her new book, *Lipstick*, attracted Brooks' notice. Cusack, who met Brooks while shooting "Broadcast News," will star in the as-yet-untitled series which will be shot in Chicago and debut in the middle of next TV season.

Cusack's brother, **John, '84**, is also doing well. His most recent film, "High Fidelity," which he co-adapted and stars in, is enjoying success at the box office.

Another ETHS duo, brothers **Roko ('89)** and **Adrian ('88) Belic**, won Best Documentary/Feature for their film "Genghis Blues" at this year's Oscar Awards.

Actress **Heather Burns, '93**, finished filming 13 episodes of "The Beat," a new TV series that premiered in March. Her character, Beatrice Felsen,

is a semi-demented recurring character in this hip New York cop series. While this is her first TV series, Burns also has been seen as a bookstore clerk in the hit movie, "You've Got Mail."

The Music Institute of Chicago held a month-long "Musical Homecoming" in January that brought back two ETHS grads for recitals: Violinist **Elisa Barston, '87**, associate concertmaster of the St. Louis Symphony, and her sister, **Amy Sue Barston, '92**, principal cellist of the Prometheus Chamber Orchestra and teaching artist in the outreach programs of the New York Philharmonic and Lincoln Center.

Another '92 grad, comedian/actor **Joel Chasnoff**, was headliner and master of ceremonies for Project Birthright in Jerusalem in January. A University of Pennsylvania graduate, Chasnoff served in the Israel Defense Forces, and then performed stand-up comedy in Hebrew for soldiers throughout Israel. He's now back in the states doing stand-up on college campuses.

**Michele Washington, '62**, has been a teacher and counselor. This resident of Lewisville, TX, also is a prolific visual artist whose works currently are exhibited in the African-American Museum at Fairpark in Dallas, the public library in Irving, TX, and elsewhere. Usually working in acrylics, oil and water color on heavy-bond paper or canvas, Washington's colorful works express universal and multicultural themes.

## Reunion Round-Up

### '60s go high tech to keep in touch

Two ETHS alums have started Internet listservs that cover virtually of the classes of the 1960s.

**Dan Guetzkow, '66**, says he's webmaster for his own class as well as for '63, '64, '65 and '66, since he knew folks in all of these classes. He invites anyone in those years to add themselves to the lists and/or to become a "moderator" for the lists. The lists are located on the web at <http://www.egroups.com/group.eths66> [or ...eths65, ...eths64, ...eths63, depending on the class].

Guetzkow, who can be reached at [daniel@guetzkow.org](mailto:daniel@guetzkow.org), has also developed two web pages. One is a discussion forum at <http://eths66.hypermart.net/discuss>. Another website, launched in 1991, is being maintained by Thann (Moy) Vernon, '66, ([btvernon@home.net](mailto:btvernon@home.net)) at <http://eths66.webjump.com>.

**Kristin Lems, '68**, has started a listserv for ETHS alumni from 1967-69. She says it's on [onelist.com](http://onelist.com). All an alum has to do is go to [www.onelist.com](http://www.onelist.com) and subscribe to the listserv entitled "ETHS." She says that the 50 members who have signed up so far "chat about so many great topics, including memories of penny candy, whether there were really live monkeys in Lytton's store windows, certain teachers, and good and bad news about fellow alums."

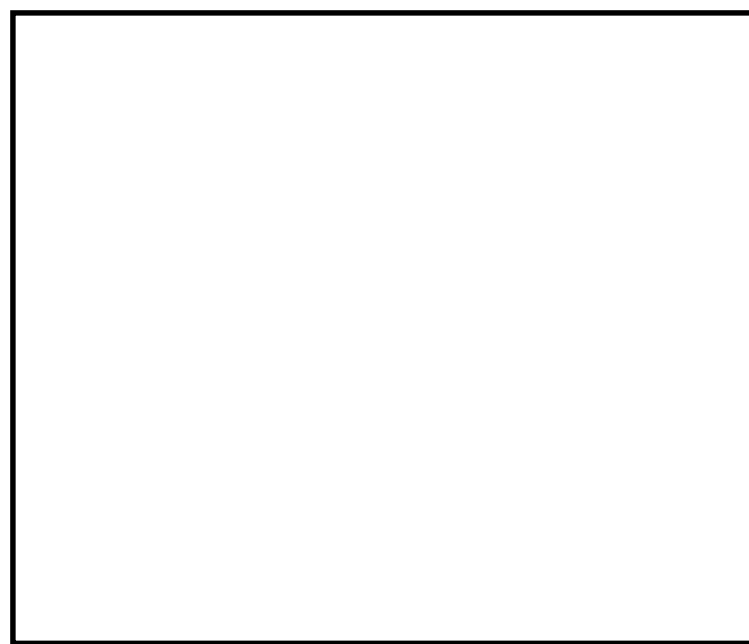

### Class of '38 does lunch quarterly

The Class of '38 had such a great time at their reunion last September that they plan to do it more often, but with a difference. No more big-time reunions, say the reunion organizers. Instead, they plan to hold quarterly casual luncheons at Hackneys on Lake Ave. in Glenview, IL. So, for those from '38 who will be around on July 12 and October 11, both Wednesdays, just come to Hackney's at noon and ask for the ETHS meeting.

### Wanted: Class of '55 volunteers

## ETHS sports great advises freshmen scholar/athletes

Cecil Martin talked informally with freshmen scholar/athletes while in town for the Alumni Athletic Hall of Fame induction.

Freshman athletes recently learned how to be a successful scholar/athlete from one of ETHS's football legends. **Cecil Martin, '94**, starting fullback for the Philadelphia Eagles, returned March 29 to help the counseling and athletic departments give a no-nonsense workshop to freshmen who think they might like to play athletics while attending college. That evening Martin was inducted into the ETHS Athletic Hall of Fame.

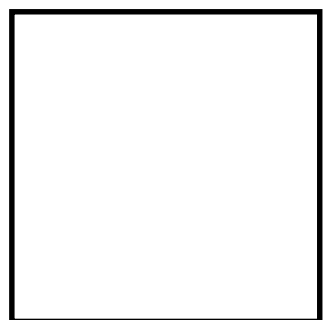

However, Martin told the freshmen that, despite his athletic prowess, it took time for him to learn how to balance academics and athletics. But he succeeded and graduated on the Dean's List in four years.

"To play a sport at the next

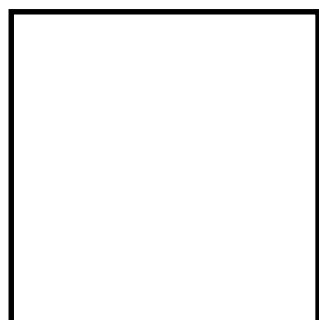

[collegiate] level," advised Martin, "pay attention to your counselors, work hard in class and on the sports field, and set priorities for yourself."

The Freshman Collegiate Workshop offered the boys and girls information about why their first-year grades are very important, NCAA guidelines, tips on taking the ACT and SAT college-entrance exams, how to understand their core GPA, and how to determine which collegiate-athletic options are best for them. Presenters, along with Martin, included John Riehle, Co-Athletic Director; guidance counselor and former basketball coach Mike Hart; and English teacher Janice Jenkins, who is academic coach for the varsity football and basketball teams.

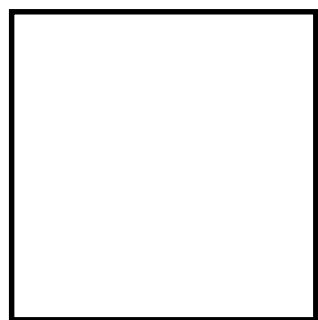

## Jazz always contemporary at ETHS

Fred Simon, '72

Jim Hines, '74

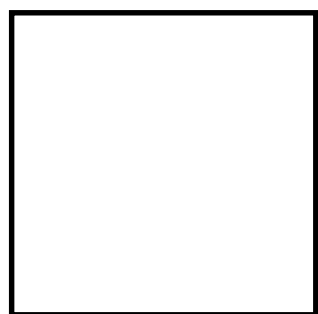

Ken Arlen, '71

Jazz music filled the ETHS auditorium on January 7 as former members of the ETHS jazz program reunited. In the afternoon, band leader **Ken Arlen, '71**, pianist **Fred Simon, '72**, bassist **Paul Merar, '72**, and drummer **Jim Hines, '74**, held workshops with current ETHS jazz students. At 7pm the alums joined in a reunion concert of contemporary jazz.

Each of these musicians moved on from ETHS to develop successful, creative careers as musicians and performers. Arlen leads one of Chicago's premier dance bands

and is in demand as a saxophonist. Simon has composed, recorded (5 in his own name) and performed live and for radio and TV for nearly 30 years. Merar, after graduating from DePaul University, has played on such movie soundtracks as "Rocky IV" and "Stayin' Alive" and has maintained a busy studio and live performance schedule. Hines, one of Chicago's busiest studio musicians, has toured with such artists as Howard Levy, Joe Sample, David Cassidy, and former Beach Boy Brian Wilson.

## Cunningham Fund to grow

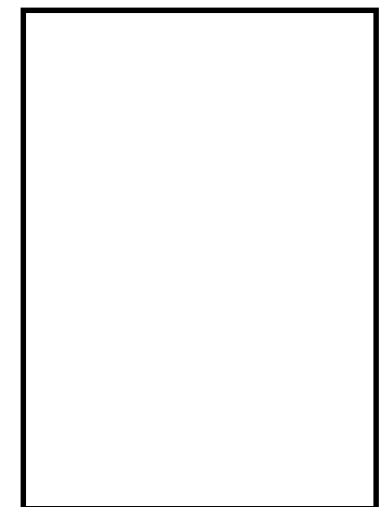

One of the most prestigious awards in terms of honor, the Oliver Baty Cunningham Award has been given annually since 1921 to the outstanding senior boy at ETHS. However, the accompanying cash award, does not equal the prestige—it is only around \$500 for each of the four years a recipient attends college.

Past recipients of the Cunningham Award and their families are working to increase the principal in the Cunningham trust, which has eroded over the years. By boosting the principal, each Cunningham Award will have a higher monetary value and will be more on a par with the outstanding girl's award—approximately \$1,500 annually—which is funded by the North End Mothers' Club.

These efforts are being spearheaded by Elaine (Grimes) Wall, '49, whose father, Donald Grimes, '24, was the third recipient of the award. "My dad was so proud of the Award," she said, "and as a young girl, I was so proud of my dad."

James D. Ossyra, Cunningham winner in 1974, joined the Alumni Association board of directors because he had heard the award was facing financial difficulty.

Said Ossyra: "The Cunningham Award made

Capt. Oliver Baty Cunningham

my life a bit easier in college. I still had to work at a paying job, but the award made a difference. It let me concentrate on my sports (lacrosse) and my studies."

The 1948 Cunningham winner, Dick Doub, supports this very important ETHS tradition. "Each of us remembers the sense of pride and accomplishment we felt when our name was announced as the winner," said Doub.

It is Doub's hope that previous Cunningham winners and their families will join him, Elaine Grimes Wall, and Jim Ossyra, by contributing to the Oliver Baty Cunningham Memorial Fund—via the ETHS District Foundation to make the donations tax-deductible—when they receive a special mailing in the near future.

### Reunions in 2002

## ETHS Authors' Bookshelf

We have 446 items on the ETHS Authors' Bookshelf, but only a few authors have contributed publications recently. What we received is especially interesting, but where are the rest of you? Since faculty members have been adding articles in professional journals to the 'Shelf, perhaps you have comparable material. Please send the entire publication, not just tear sheets of your article, along with your resume and photo.

**James D. Snyder, '54,** has written a fascinating historical novel titled *All God's Children, the Tumultuous Story of A.D.31- 71*. Dealing with conflicts centuries later and also showing extensive research, **Richard Marin, '74,** a professional photographer, has compiled a collection of photographs: *War of Our Fathers; Relics of the Pacific Battlefields*.

**Aaron M. Brower, '76,** sent three books: *Social Cognition and Individual Change- Current Theory and Counseling Guide Lines, What's Social About Social Cognition?*

and *The Clue Book. The Clue Book*, subtitled "The Universal Survival Guide at the U. of Wisconsin-Madison," should interest current students, parents and even grandparents as its questionnaires help people choose the right college, the right housing, and the right majors.

*Accounts Receivable Management for the Medical Practice* by **J. Dennis Mock, '58,** is a practical reference book for those in the field.

**Cheryl Walker, '65,** has contributed *Indian Nation-Native American Literature and Nineteenth Century Nationalisms* as well as *Masks-Outrageous and Austere: Culture, Psyche, and Persona in Modern Women Poets*.

**James Schaack, '47,** is from one of the most prolific classes on the Bookshelf. He's added to the 1947 class record (23 items!) by writing *Up and Down the St. Vrain Canyon*, an interpretative introduction. He also sent two copies of the local newspaper *Allenspeak Wind* in which he writes columns about stars. Jim's career as a Park Naturalist in the West is one that most would envy.

Alumni's biographies show the breadth of experiences and interests we have had. So, when you're in the school library, be sure to read the

biographies/resumes/c.v.'s of the authors. They are in large notebooks adjacent to the Bookshelf.

If you would like to contribute your book but only have one copy, have you tried to locate a copy on the great out-of-print web sites on the Internet? Try abebooks.com for a fast, free search. You may find your book for sale in an obscure bookstore somewhere in the world. Write me at KATE 194@earthlink.net or please send books or journals to 3000 Thayer Street, Evanston, IL 60201-1147.
